

Solo Builder AI Launch Kit v1

Product: Solo Builder AI Launch Kit

Version: 1.0.0

Prepared: 2026-06-08

This packet contains editable templates and reference PDFs for solo builders documenting AI-enabled apps, websites, automations, consulting workflows, client deliverables, digital products, productized services, and micro-SaaS tools before launch.

Start with `START-HERE.md`, then adapt the DOCX files for your project.

Included documents

1. **AI Project Snapshot** - captures the basic facts about the AI project, AI role, data inputs, claims, and review date.
 2. **AI Claims Checklist** - helps review public claims, evidence, safer rewrites, and publish decisions.
 3. **User Data and Privacy Intake** - maps data collected, data sent to AI, vendor exposure, logs, and do-not-submit rules.
 4. **AI Disclosure and Disclaimer Builder** - provides starter disclosure, limitation, review, data-use, and problem-reporting language.
 5. **Red Flag Use Case Triage** - helps sort lower-risk, needs-review, and pause/escalate AI uses.
 6. **Vendor / Model Dependency Note** - records vendors, models, prompts, settings, limitations, and fallback plans.
 7. **Pre-Launch AI Risk Checklist** - supports a practical ship/no-ship decision before launch.
 8. **Customer FAQ Template** - prepares plain answers about AI use, data, review, limitations, and reporting problems.
 9. **Incident / Complaint Mini-Log** - tracks bad outputs, user confusion, data concerns, and follow-up actions.
1. **AI Change Log** - tracks model, prompt, vendor, data, disclosure, claim, and behavior changes.
 2. **30-Minute Setup Guide** - gives the fastest useful path through the packet.
 3. **Filled Example: AI Website or App** - shows a completed record for a user-facing AI app.
 4. **Filled Example: Consultant or Freelancer Using AI** - shows a completed record for AI-assisted client work.
 5. **Filled Example: Digital Product, Automation, or Micro-SaaS** - shows a completed record for a small AI product or workflow.

Folder structure

- `markdown/` - plain-text source/reference files
- `docx/` - editable Word-compatible documents
- `pdf/` - PDF exports
- `START-HERE.md` - buyer-facing setup guide
- `LEGAL-NOTICE.md` - educational-use and legal-boundary notice
- `source-notes/` - notes identifying source drafts used to assemble the packet

Important boundary

These materials are educational templates and practical documentation starting points only. They are not legal advice, do not create an attorney-client relationship, do not make an AI project compliant, do not approve a use case, do not guarantee safety, and do not replace qualified legal, privacy, security, HR, procurement, platform, or sector-specific review.
