

First AI Governance Meeting Agenda

Company: [COMPANY NAME]

Meeting owner: [AI GOVERNANCE LEAD]

Date:

Length: 30 minutes default / 60 minutes if needed

How to use. Use this agenda for the first meeting after drafting the inventory and AI use rules. The goal is not to solve every AI issue. The goal is to agree on owners, rules, review triggers, and next actions.

Who should attend

Invite only the people needed for a practical first pass:

- AI governance owner or operations lead
- Founder, executive sponsor, or department lead
- IT/security or systems owner if available
- Privacy/legal/compliance contact if available
- Representatives from teams already using AI heavily

For a very small team, two or three people is enough.

Pre-work

Send these at least one day before the meeting:

- Draft AI Use Inventory
- Draft AI Acceptable Use Policy
- Green / Yellow / Red AI Use Rules
- List of higher-risk workflows or open questions
- Proposed owner for the update tracker

Ask attendees to come prepared with:

- AI tools their team uses
- Any sensitive-data concerns
- Any customer-facing AI use
- Any new tool requests
- Any rule that seems unclear or impractical

Facilitator notes

- Keep the meeting practical. If a topic becomes legal or technical, assign a follow-up instead of guessing.
- Do not let perfect classification block basic visibility.
- Record conditions and open questions in the inventory or update tracker.
- End with owners and dates.
